Anti-Static Carpet spray

Product Code:	250ml concentrate	77500038
	1 litre	77500036
	2 litre	77500037
	5 litre	77500038

Description: A biodegradable, anti-static carpet treatment which neutralises and prevents dust and static build up on carpets, floors and other work surfaces.

Technical Information: A biodegradable solution containing complex quaternary ammonium compounds, detergents and solvents.

How to Use: Adjust nozzle on the pump to required mist. Spray liberally onto areas where static is likely to build up. Plastic surfaces should be wiped over with a Multiclene after treatment.

Where to Use: Anti-static is used in any area of an office or workshop where the build up of static causes problems. Anti-stat should not be sprayed directly onto keyboards or parts carrying electrical currents.
